Welcome Kay Evans

It is my pleasure to be appointed Administrator of Ottawa County Riverview Healthcare Campus. I am excited to introduce myself as the new Administrator. I have a passion for healthcare, specifically working with my senior population. I have been an Administrator for 22 years. I am a dedicated advocate for quality of care, comfort and safety. I am eager to join this team of employees and support our mission to foster a nurturing and safe environment for our residents.

My focus is on creating a homelike environment where every resident feels valued and respected. I am deeply committed to ensuring we provide the highest standards of care, where our values of compassion, integrity and excellence are visible every day.

I believe in transparent communication. I look forward to walking the halls, meeting everyone, and learning how I can best support our residents and staff. If you have feedback, ideas, or concerns, please know my door is always open to you. I understand that transitioning to a new facility or welcoming a new leader can feel overwhelming for residents, families and staff. My goal is to build a partnership with residents, families and staff.

I am excited to join the Riverview Family and I am looking forward to working together to enhance the quality of life for our residents. I look forward to meeting all of you.

Sincerely,

Kay Evans, LNHA, MHSA

Meleny Bonnell & Becky Lenke for going out of their way to help a resident in need—by Carla

Meleny Bonnell for staying late for resident care concern and missing some family time for us at Riverview—by Carla

National Nurse's Week

May 6—12, 2026

Nurses play a vital role in healthcare by caring for patients, administering medications, monitoring vital signs, and educating patients and their families on their health conditions and treatments. They also collaborate with other healthcare professionals to ensure comprehensive patient care.

Nursing home nurses manage nursing care for residents with conditions ranging from a fracture to Alzheimer's disease. Many nurses spend most of their time on administrative, regulatory and supervisory tasks. Nurses also assess residents' medical conditions, develop treatment plans, supervise nursing aides, and perform difficult procedures such as starting intravenous fluids. They also work in specialty care departments, such as short term rehab to memory care units.

thank you

Ottawa County Riverview Healthcare Campus

**Gift Cards Available*

RIVERVIEW HEALTHCARE CAMPUS has serviced Ottawa County for 153 years as a County Owned Skilled Nursing Facility. We are also very proud that in 2020 we added Assisted Living to our list of services. In 2022 we were able to add Independent Living. Thanks for continuing the Tradition!

Our Core Values:

" We deliver to our residents a level of service that anticipates and exceeds their needs. We measure and evaluate the effectiveness of the services we provide from the viewpoint of those whom we serve. We require high standards of performance, professionalism and teamwork from our employees."
