WELCOME KAY EVANS

It is my pleasure to be appointed Administrator of Ottawa County Riverview Healthcare Campus. I am excited to introduce myself as the new Administrator. I have a passion for healthcare, specifically working with my senior population. I have been an Administrator for 22 years. I am a dedicated advocate for quality of care, comfort and safety. I am eager to join this team of employees and support our mission to foster a nurturing and safe environment for our residents.

My focus is on creating a homelike environment where every resident feels valued and respected. I am deeply committed to ensuring we provide the highest standards of care, where our values of compassion, integrity and excellence are visible every day.

I believe in transparent communication. I look forward to walking the halls, meeting everyone, and learning how I can best support our residents and staff. If you have feedback, ideas, or concerns, please know my door is always open to you. I understand that transitioning to a new facility or welcoming a new leader can feel overwhelming for residents, families and staff. My goal is to build a partnership with residents, families and staff.

I am excited to join the Riverview Family and I am looking forward to working together to enhance the quality of life for our residents. I look forward to meeting all of you.

Sincerely,

Kay Evans, LNHA, MHSA

A VISIT THAT CHANGED A COUPLES FUTURE!

Let me introduce ourselves: We are Bill & Joyce Draeger from the Lindsey, Ohio area, and we have traveled to Riverview from approximately 11 miles South & West of here.

How we met, married, and worked together for over 62 years is most definitely a story for another day! We did realize that age was taking to toll on our bodies and our health and so with this on our minds, we needed to make a change in the way we lived out our days.

It was during a visit to Riverview Healthcare Campus to see my friend, that I was encouraged by his daughter to view the Independent Living Facility recently completed. It was very nice, handicap accessible, and something that could help me and my wife live out our Senior years. Little did I realize that with in months of that visit to Riverview, I would sign up to become a new resident along with my wife,

Our lives have changed and our outlook much more positive since we have made the choice to keep our same pillow, but just use them in another place. Riverview is so friendly and offers many ways to reach out to others with friendship, smiles, love and a helping hand.

Tasty meals and friendly employees are only a part of each days activities that make us so glad that we chose Riverview to be our home. As Joyce and I are now starting our 5th year of Independent Living at the Riverview Healthcare Campus, we praise God for his continuing guidance and direction as we felt His leading in choosing our place of care in our more challenging days of our lives

Thanks,

Bill & Joyce Draeger

NATIONAL NURSES WEEK
MAY 6—12, 2026

Nurses play a vital role in healthcare by caring for patients, administering medications, monitoring vital signs, and educating patients and their families on their health conditions and treatments. They also collaborate with other healthcare professionals to ensure comprehensive patient care.

Nursing home nurses manage nursing care for residents with conditions ranging from a fracture to Alzheimer's disease. Many nurses spend most of their time on administrative, regulatory and supervisory tasks. Nurses also assess residents' medical conditions, develop treatment plans, supervise nursing aides, and perform difficult procedures such as starting intravenous fluids. They also work in specialty care departments, such as short term rehab to memory care units.

During the week of May 6-12, 2025 make sure you say "THANK YOU" to our Riverview Nursing staff for their hard work and dedication to our residents and staff!

thank you

NATIONAL NURSING ASSISTANT WEEK
June 11—17, 2026

The work day for a State Testing Nurse Assistant (STNA) is busy. It is not uncommon for her/him to be responsible for multiple residents at the same time in one day. She/he is usually the caregiver that the patient most often sees, so it is important for them to be observant of the patients well being. Patient comfort and general patient care are the duties that they are responsible for handling. In a home care environment or nursing home, the STNA is the predominate caregiver on a day-to-day basis. Please help us Recognize and Thank our Exceptional STNAs during Nursing Assistant's Week

thank you

OUR CORE VALUES

Riverview Healthcare Campus has served the residents of Ottawa County for 153 years as a County-Owned Skilled Nursing Facility. We are also very proud that in 2020 we added Assisted Living to our list of services. In 2022 we were able to add Independent Living.

OUR CORE VALUES STATE...

"We deliver to our residents a level of service that anticipates and exceeds their needs. We measure and evaluate the effectiveness of the services we provide from the viewpoint of those whom we service. We require high standards of performance,professionalism and teamwork from our employees."
